Morro Bay State Park features lagoon and natural bay habitat. The bay's most prominent landmark is Morro Rock. The park has opportunities for sailing, fishing, hiking and bird watching. The park museum has exhibits that cover natural features and cultural history, Native American life, geology, and oceanography. The park also has a colorful marina and an 18-hole public golf course. On the bay's northeast edge is a pristine saltwater marsh that supports a thriving bird population. Please help preserve our park for the future by following these rules:
